I HEREBY CERTIFY THAT THIS CORRESPONDENCE IS BEING DEPOSITED WITH THE UNITED STATES POSTAL SERVICE AS  
FIRST-CLASS MAIL IN AN ENVELOPE ADDRESSED TO: ASST. COMMISSIONER FOR PATENTS, WASHINGTON D.C. 20231 ON  
THIS 6th DAY OF June 2001. BY: Re. g. B...

AMENDMENT AFTER FINAL

Sir:

In response to the Office Action mailed March 6, 2001, please amend the above-identified  
application as follows.

IN THE CLAIMS

Please amend the following claims:

- 5N  
H  
F
17. A process for the preparation of a polyolefin molding composition comprising at least two polyolefinic components, wherein the composition is characterized by a broad melting range in a DSC spectrum determined with a heating/cooling rate 20° C/min and a melting peak, wherein the melting range maximum is between 120 and 165°C, the half-intensity width of the melting peak is broader than 10°C and the width determined at quarter peak height is greater than 15°C, wherein such process comprises the direct polymerization of propylene or copolymerization of propylene with olefins of the formula  $R^aCH=CHR^b$ , in which  $R^a$  and  $R^b$  are identical or different and are a hydrogen atom or an alkyl radical having 1 to 14
